## COMMUNIQUE FROM MRND REGARDING CYOHOHA-RUKERI KILLINGS OF 15 MARCH 1994

The MRND political Bureau condemns strongly the killings of 15 March, at Cyohoha – Rukeri by RPF, killings similar to those of Kirambo, Mutura, Bwisige, etc.

The political Bureau notices sadly the machiavellian plan of RPF carried out by shedding blood of innocent people and blocking the installation of transitional institutions.

The political Bureau urges the UNAMIR to reinforce security measures in the neutral zone. In that way the political Bureau appeals to the UNAMIR to show impartiality in the fulfillment of his duties.

The political Bureau takes this opportunity to remember the UNAMIR to make public results on investigations of Kirambo killings for now 118 days as said by our colleague, Mutura and Bwisige killings..., otherwise action will be brought to the UN Secretary General.

The political Bureau demands the emergency meeting of the cabinet to take appropriate measures to curb absolutely such exactions.

The Political Bureau demands the current government to fulfill properly his duties by safeguarding the Rwandans interests or otherwise to resign.

The Political Bureau states that he is bothered and tired; he will no longer stay and watch passively the shedding blood acts of RPF against innocent population.

The political Bureau sends his condolences to suffering families who lost theirs.

Done in Kigali on 16 March 1994

Secretary General of MRND.
